

A sex positive week to bring more awareness  
in the diversity of intimacies and to explore  
creative processes through somatic kink  
methodologies

23rd to 30th March 2024 in Fuerteventura

facilitated by Vanessa Langer & [Sharka Rey](#)

In a beautiful environment, resembling a moon land, a remote venue, not far from the sea, is hosting this exceptional and unique one week retreat.

This workshop is for those who want to creatively explore kinky practices. It's also for those who want to deepen their relationships with their bodies, sexualities and others as well as for people interested in exploring creativity within their own erotic life. It's for all curious as well as advanced kinksters, all genders, bodies, ages and all sexual orientations.

We see a large potential in exploring the intersection of somatic kink methodologies and creative process in which critical thinking is encouraged. Moreover, we think that sex positive spaces are needed in our society in order for us to explore alternative forms of intimacies in safer spaces, to promote diversity and care for various body shapes, ages, origins, relationship types and sexual practices, and to challenge archaic and heteronormative views of sexuality.

In addition, this work encourages us to become better communicators and to be able to ask for our needs and express our boundaries. The whole week is based on a framework of consent.

During the week we will also go out to merge with the natural environment of this volcanic island such as dunes, rocks and the sea to awaken our senses and our capacity to interconnect with the surrounding elements.
